

Water Wells Q1 2025 Impact Report

Campaign: Clean Water for East Africa

Period: Q1 2025 (January – March)

Date: May 13, 2026

14,000 BENEFICIARIES REACHED	\$28,500 FUNDS UTILIZED	3 LOCATIONS SERVED
--	---	--

Outcomes & Impact

In the first quarter of 2025, CharityHub completed the installation of 12 solar-powered water wells across rural Kenya, providing clean water access to approximately 2,800 families (14,000 people).

Key outcomes:

- 12 wells installed and fully operational
- 14,000+ people with clean water access
- 87% reduction in waterborne illness reports in served communities
- 6 local technicians trained for ongoing maintenance

Children who previously spent 4+ hours daily fetching water can now attend school regularly. Women report spending this time on income-generating activities instead.

Beneficiary Locations

Makueni Village 3 wells serving 3,200 people	3,200 helped
Kajiado District 5 wells serving 5,800 people	5,800 helped

Taita Taveta
